# About conference programme

EAHIL 2024 conference online programme consists of two main parts – timetables and lists of keynote speakers, Parallel sessions and Poster exhibit.

Timetables include information about time slots and events happening at said times.

Underlined event titles in timetables are clickable and lead to the event description page.

Parallel session and poster exhibition lists include titles and presenting authors of oral presentations and posters.

# Timetables

# Wednesday, June 12th

9:00-10:00	Opening Ceremony		
10:00-10:45	<u>Keynote Speaker Kristīne Pabērza-Ramiresa - Community-centred impact planning and evaluation for health information libraries</u>		
10:45-11:30	Break		
11:30-13:00	<u>A1 Parallel Session Libraries as change agents 1:</u> 1.Analytical autoethnography as coping mechanism for deeply emotional work 2.Achieving 100% open access @University of Groningen: Libraries as positive change agents 3.Gender*MoRe. Permanent documentation and monitoring center for Gender Bias in Science - University of Modena and Reggio Emilia (UNIMORE - Italy) 4.Development of a competency framework for health information specialists in the Netherlands	<u>A2 Parallel Session Research &amp; Open Science 1:</u> 1.The TARCiS statement: Guidance on terminology, application, and reporting of citation searching 2.Development towards a research intelligence dashboard in the University Medical Center Groningen: role of the Central Medical Library 3.Research News Media Influence on Altmetrics and Citation Behavior 4.Librarians' quest to exhaustivity and openness: tracking institutional publications and observing evolving trends in data sharing	<u>A3 Parallel Session Shaping the Educational Environment 1:</u> 1.Demonstrating the checklist for research data management in undergraduate student's thesis process 2.Welcoming new students – an easy 'gamified' way to introduce our library services and essential information resources in medicine and health sciences 3.Cultivating curiosity: mastering the Art of Student Engagement 4.New learning experiences using arts and humanities in Academic Health Sciences Library
13:00-14:00	Break		
14:00-15:00	Sponsor Presentations		
15:00-15:30	<u>Poster Presentation Rapid-fire session</u>		
16:00-17:30	<u>Online Only Workshop - AI tools for literature searching: Opportunities, limitations, and responsible use</u>		

# Thursday, June 13th

<p>9:00-10:30</p>	<p><u>B1 Parallel Session Libraries as change agents 2:</u></p> <ol style="list-style-type: none"> <li>1.Be careful! A Portuguese project about critical thinking and information literacy to counteract health disinformation in an academic context</li> <li>2.Catalysts of change: Empowering medical librarians as specialists in libraries redefining the scientific publishing landscape</li> <li>3.Individually we are valuable, together we are magnificent. Providing pathways to change through peer-support.</li> <li>4.A New Path to Collaboration: Clinical Librarians' Involvement in Developing Hospital-based Care Signature Pathways</li> </ol>	<p><u>B2 Parallel Session Research &amp; Open Science 2:</u></p> <ol style="list-style-type: none"> <li>1.Applying research intelligence to health information behaviour research agendas for Africa: ensuring proactive, impactful research</li> <li>2.What is the role of CINAHL in rapid reviews of nursing topics?</li> <li>3.There's no limit! Expanding horizons for information professionals in evidence synthesis</li> <li>4.Developing an automated search strategy to keep the Systematic Review Toolbox up to date</li> </ol>	<p><u>B3 Parallel Session Shaping the Educational Environment 2:</u></p> <ol style="list-style-type: none"> <li>1.Analysis of the Development and Change in Medical Tutors' Teaching in Problem-Based Learning</li> <li>2.Connecting and Supporting Systematic Reviewers: Using Microsoft Teams to Establish a Virtual Community of Practice</li> <li>3.From one to a group: Development and implementation of a knowledge synthesis workshop series to train researchers and students across disciplines, and now, across institutions.</li> <li>4.Libraries as agents of sustainable development: strategies and good practices from Italy and Europe</li> </ol>
<p>10:30-11:30</p>	<p>Break</p>		

# Thursday, June 13th

<p>11:30-13:00</p>	<p><u>C1 Parallel Session Visibility &amp; Strategic presence 1:</u></p> <ol style="list-style-type: none"> <li>1.New role for medical libraries: supporting researchers and technology transfer offices by searching patent databases.</li> <li>2.A value for money, data-driven and transparent strategy to improve the Maastricht Univeristy Medical Centre/Faculty (MUMC+) e-journal collection.</li> <li>3.Show and Tell: making an impact and telling the story of a long-term strategic approach to developing NHS knowledge and library services</li> <li>4.Knowing how to communicate "knowledge". A training experience among biomedical documentalists</li> </ol>	<p><u>C2 Parallel Session Research &amp; Open Science 3:</u></p> <ol style="list-style-type: none"> <li>1.Navigating Research Data Management in Medical Libraries of Pakistan: Embracing Small Steps and Giant Leaps in the New Environment</li> <li>2.Examining systematic review terminology and quality assessment in reviews of children’s social care interventions</li> <li>3.Open access: Dependence from major APC-based publishers in Portugal Subthemes: Research &amp; Open Science</li> <li>4.The Information Specialist in Systematic Reviews: an active role? The example of the Italian oncological research field</li> </ol>	<p><u>C3 Parallel Session Technology &amp; Tools 1:</u></p> <ol style="list-style-type: none"> <li>1.Automating search term identification with MeSH entry terms via API</li> <li>2."Finding what you expect, accessing what you need": customer journey analysis of the findability and access of library resources &amp; services</li> <li>3.Iterative searches in citation databases – which free databases are suitable?</li> <li>4.Sensitivity, precision and efficiency of search strategies built using a text-mining word frequency tool (PubReMiner) compared with current best practice search strategy building: a study within a review (SWAR) protocol</li> </ol>
<p>13:00-14:00</p>	<p>Break</p>		
<p>14:00-15:30</p>	<p>D1 Panel discussion about AI</p>		

# Friday, June 14th

9:00-10:30	<p><u>F1 Parallel Session Technology &amp; Tools 2:</u></p> <ol style="list-style-type: none"> <li>1.Our friends automatic: leading uptake of software tools to expedite the systematic review process</li> <li>2.Natural Language Processing and scientific documentation: examples of applications and current project at Public Health France</li> <li>3.Improving FAIRness of datasets in institutional repository; tools and FAIR IMPACT challenge experience.</li> <li>4.REDCap: a new custom-made system for monitoring the biomedical production of a new Italian Research Institute</li> </ol>	<p><u>F2 Parallel Session Libraries as change agents 3:</u></p> <ol style="list-style-type: none"> <li>1.Information Retrieval @ KU Leuven: from a small biomedical service to a well-defined research support service for the entire university.</li> <li>2.Polish medical libraries in the service of open research data Evidence-based searching: using Search Summary Tables to update 3.Evidence and Gap Maps. A case study in intergenerational activities</li> <li>4.The challenge of a hospital network digital library towards open science in a health public system. The institutional health repository of Andalusia (RISalud-ANDALUCIA)</li> </ol>	<p><u>F3 Parallel Session Research &amp; Open Science 4:</u></p> <ol style="list-style-type: none"> <li>1.Data management skills for students of medical faculty and pharmacy: Our solutions</li> <li>2.Differences in search strategies and corresponding outputs between matching Cochrane Reviews, Health Technology Assessment (HTA) reports and other systematic reviews</li> <li>3.Search summary tables – The collected wisdom of two organisations</li> <li>4.An innovative approach to supporting evidence-based Adverse Outcome Pathways: a successful case study with librarians on the project team</li> </ol>
10:30-11:30	Break		
11:30-12:30	General Assembly		
12:30-13:15	<u>Keynote Speaker Andrea Alessandro Gasparini - The endeavour of using AI in research libraries - a designerly perspective</u>		
13:15-13:45	Awards & Closing Ceremony		

# Keynote Speakers

# Kristīne Pabērza-Ramiresa (Impact & Insight Manager at IFLA)

Kristīne Pabērza-Ramiresa is Impact & Insight Manager at the International Federation of Library Associations and Institutions (IFLA). In this role she drives and coordinates work related to building a culture of impact evaluation across IFLA communities and in the wider library field.

Kristine is an impact strategist and change facilitator with more than 15 years of experience in monitoring and evaluation dedicated to building a culture of planning for impact and impact evaluation. She is passionate about changing mindsets and building capacity in measurement and evaluation. Kristine is an experienced facilitator and instructor on community needs assessment, performance measurement and impact evaluation.

To demonstrate the value and impact of libraries, Kristine works with organisations from around the world to collaboratively create the Library Map of the World – a source of country-level library statistics, a collection of stories about impactful library programmes contributing to the achievement of the UN Sustainable Development Goals (SDGs), and a source of information about the library field in each country.

# Andrea Alessandro Gasparini, PhD (Senior Librarian and researcher in University of Oslo Library and Department of Informatics)

Andrea Alessandro Gasparini finished in February 2020 his Ph.D. at the Department of Informatics, University of Oslo, Norway. Right after he had a position in the same department as a senior lecturer, and thereafter as acting group leader of the “Regenerative Technologies” research group. He has also worked for more than 20 years as a chief engineer at the University of Oslo Library. He has been working with e-readers and tablet PCs in a primary school and the University of Oslo for his master's thesis. His Ph.D. is about the use of Design Thinking and Service Design in academic libraries. Andrea Gasparini could test his approach in Norway, Italy, the USA, and Uganda. In addition, he received in 2017 a grant to study ways of using Artificial Intelligence (AI) combined with a designerly and user-centered approach in the context of an academic library.

# Parallel Sessions

# Parallel Session

## «Libraries as change agents 1»

- 1. Analytical autoethnography as coping mechanism for deeply emotional work** presented by INA FOURIE (Department of Information Science (iSchool), University of Pretoria)
- 2. Achieving 100% open access @University of Groningen: Libraries as positive change agents** presented by PETER BRAUN (Central Medical Library, University Medical Center Groningen, University of Groningen)
- 3. Gender\*MoRe. Permanent documentation and monitoring center for Gender Bias in Science - University of Modena and Reggio Emilia (UNIMORE - Italy)** presented by ELENA GALLINA (Medical Library, University of Modena and Reggio Emilia) and NICOLA DE BELLIS (Bibliometric Office, University of Modena and Reggio Emilia)
- 4. Development of a competency framework for health information specialists in the Netherlands** presented by CHANTAL DEN HAAN (Department of Research and Epidemiology, Medical Library, OLVG Hospital)

# Parallel Session

## «Libraries as change agents 2»

- 1. Be careful! A Portuguese project about critical thinking and information literacy to counteract health disinformation in an academic context** presented by TATIANA SANCHES (UIDEF, Instituto de Educação (Universidade de Lisboa))
- 2. Catalysts of change: Empowering medical librarians as specialists in libraries redefining the scientific publishing landscape** presented by MAGDALENA KOKOSIŃSKA (Information and Library Center, Medical University of Lodz)
- 3. Individually we are valuable, together we are magnificent. Providing pathways to change through peer-support** presented by MARY DUNNE (Health Research Board) and NICOLA O'SHEA (Children's Health Ireland at Crumlin)
- 4. A New Path to Collaboration: Clinical Librarians' Involvement in Developing Hospital-based Care Signature Pathways** presented by ZSUZSANNA NEMETH (Cushing/Whitney Medical Library, Yale University) and HOLLY GROSSETTA NARDINI (Cushing/Whitney Medical Library, Yale University)

# Parallel Session

## «Libraries as change agents 3»

- 1. Information Retrieval @ KU Leuven: from a small biomedical service to a well-defined research support service for the entire university** presented by THOMAS VANDENDRIESSCHE (KU Leuven Libraries – 2Bergen – Learning Centre Désiré Collen)
- 2. Polish medical libraries in the service of open research data** presented by MAŁGORZATA GUBERNAT (Medical Library, Jagiellonian University Medical College)
- 3. Evidence-based searching: using Search Summary Tables to update Evidence and Gap Maps. A case study in intergenerational activities** presented by MORWENNA ROGERS (University of Exeter)
- 4. The challenge of a hospital network digital library towards open science in a health public system. The institutional health repository of Andalusia (RISalud-ANDALUCIA)** presented by LAURA MUNOZ-GONZALEZ (Andalusian Digital Library of Health)

# Parallel Session

## «Research & Open Science 1»

- 1. The TARCiS statement: Guidance on terminology, application, and reporting of citation searching** presented by CHRISTIAN APPENZELLER-HERZOG (University Medical Library, University of Basel)
- 2. Development towards a research intelligence dashboard in the University Medical Center Groningen: role of the Central Medical Library** presented by ROBIN OTTJES (Central Medical Library, University Medical Center Groningen)
- 3. Research News Media Influence on Altmetrics and Citation Behavior** presented by ARTEMIS CHALEPLIOGLOU (University of West Attica)
- 4. Librarians' quest to exhaustivity and openness: tracking institutional publications and observing evolving trends in data sharing** presented by FLORIANE MULLER (University of Geneva Library) and PABLO IRIARTE (University of Geneva Library)

# Parallel Session

## «Research & Open Science 2»

- 1. Applying research intelligence to health information behaviour research agendas for Africa: ensuring proactive, impactful research** presented by INA FOURIE (Department of Information Science (iSchool), University of Pretoria)
- 2. What is the role of CINAHL in rapid reviews of nursing topics?** presented by IRMA KLERINGS (University for Continuing Education Krems, Cochrane Austria)
- 3. There's no limit! Expanding horizons for information professionals in evidence synthesis** presented by MARK CLOWES (University of Sheffield)
- 4. Developing an automated search strategy to keep the Systematic Review Toolbox up to date** presented by ANTHEA SUTTON (University of Sheffield)

# Parallel Session

## «Research & Open Science 3»

- 1. Navigating Research Data Management in Medical Libraries of Pakistan: Embracing Small Steps and Giant Leaps in the New Environment** presented by NASIR AHMED KHAN (Aga Khan University)
- 2. Examining systematic review terminology and quality assessment in reviews of children's social care interventions** presented by SIMONE WILLIS (Cardiff University)
- 3. Open access: Dependence from major APC-based publishers in Portugal Subthemes: Research & Open Science** presented by SUSANA OLIVEIRA HENRIQUES (Faculdade de Medicina, Universidade de Lisboa) and TERESA COSTA (NOVA Medical School, Universidade NOVA de Lisboa)
- 4. The Information Specialist in Systematic Reviews: an active role? The example of the Italian oncological research field** presented by MARIA CHIARA BASSI (Medical Library, Azienda USL - IRCCS di Reggio Emilia), SIMONE COCCHI (Bibliometric Office, University of Modena and Reggio Emilia) and PAOLO GARDOIS (Medical Library, University of Turin)

# Parallel Session

## «Research & Open Science 4»

- 1. Data management skills for students of medical faculty and pharmacy: Our solutions** presented by IINA HEPOLEHTO (Helsinki University Library, Terkko Medical Campus Library)
- 2. Differences in search strategies and corresponding outputs between matching Cochrane Reviews, Health Technology Assessment (HTA) reports and other systematic reviews** presented by ERIK WIKSTRÖM (HTA South)
- 3. Search summary tables – The collected wisdom of two organisations** presented by ALISON BETHEL (University of Exeter)
- 4. An innovative approach to supporting evidence-based Adverse Outcome Pathways: a successful case study with librarians on the project team** presented by ELENA BERNARDINI (Università degli studi di Milano) and BARBARA VIVIANI (Università degli studi di Milano)

## Parallel Session

# «Shaping the Educational Environment 1»

- 1. Demonstrating the checklist for research data management in undergraduate student's thesis process** presented by TAISA SALLINEN (University Of Eastern Finland Library / Kuopio University Hospital Medical Library)
- 2. Welcoming new students – an easy ‘gamified’ way to introduce our library services and essential information resources in medicine and health sciences** presented by TIINA HEINO (Helsinki University Library, Terkko Medical Campus Library) and KATRI LARMO (Helsinki University Library, Terkko Medical Campus Library)
- 3. Cultivating curiosity: mastering the Art of Student Engagement** presented by ANNA SIKORSKA (Information and Library Center, Medical University of Lodz)
- 4. New learning experiences using arts and humanities in Academic Health Sciences Library** presented by DELPHINE BERTRAND (Université Libre de Bruxelles (ULB), Bibliothèque des sciences de la santé (BSS))

## Parallel Session

# «Shaping the Educational Environment 2»

- 1. Analysis of the Development and Change in Medical Tutors' Teaching in Problem-Based Learning** presented by KUBRA ZAYIM GEDIK (Bezmialem Vakif University)
- 2. Connecting and Supporting Systematic Reviewers: Using Microsoft Teams to Establish a Virtual Community of Practice** presented by REBECCA JONES (Imperial College London)
- 3. From one to a group: Development and implementation of a knowledge synthesis workshop series to train researchers and students across disciplines, and now, across institutions** presented by ZAHRA PREMJI (University of Victoria) and K. ALIX HAYDEN (University of Calgary)
- 4. Libraries as agents of sustainable development: strategies and good practices from Italy and Europe** presented by ANNA BILOTTA (Department of Cultural Heritage Sciences of the University of Salerno)

# Parallel Session

## «Visibility & Strategic presence 1»

- 1. New role for medical libraries: supporting researchers and technology transfer offices by searching patent databases** presented by ELISE KRABBENDAM (Erasmus MC)
- 2. A value for money, data-driven and transparent strategy to improve the Maastricht University Medical Centre/Faculty (MUMC+) e-journal collection** presented by FLOOR RUITER (Maastricht University)
- 3. Show and Tell: making an impact and telling the story of a long-term strategic approach to developing NHS knowledge and library services** presented by SUE LACEY BRYANT (NHS England)
- 4. Knowing how to communicate "knowledge". A training experience among biomedical documentalists** presented by FRANCESCA GUALTIERI (ROTTAPHARM BIOTECH s.r.l., Monza MB - Library and Archives)

# Parallel Session «Technology & Tools 1»

1. **Automating search term identification with MeSH entry terms via API** presented by HELGE KNÜTTEL (University Library of Regensburg) and ELKE HAUSNER (IQWiG)
2. **"Finding what you expect, accessing what you need": customer journey analysis of the findability and access of library resources & services** presented by GUUS VAN DEN BREKEL (Central Medical Library, University Medical Center Groningen, University of Groningen)
3. **Iterative searches in citation databases – which free databases are suitable?** presented by ELKE HAUSNER (IQWiG)
4. **Sensitivity, precision and efficiency of search strategies built using a text-mining word frequency tool (PubReMiner) compared with current best practice search strategy building: a study within a review (SWAR) protocol** presented by MARIE CARRIGAN (Health Information and Quality Authority)

# Parallel Session «Technology & Tools 2»

- 1. Our friends automatic: leading uptake of software tools to expedite the systematic review process** presented by ANTHEA SUTTON (University of Sheffield), MARK CLOWES (University of Sheffield) and LOUISE FALZON (University of Sheffield)
- 2. Natural Language Processing and scientific documentation: examples of applications and current project at Public Health France** presented by LAETITIA HAROUTUNIAN (Public Health France)
- 3. Improving FAIRness of datasets in institutional repository; tools and FAIR IMPACT challenge experience** presented by JOANNA OSIKA (Medical University of Gdańsk)
- 4. REDCap: a new custom-made system for monitoring the biomedical production of a new Italian Research Institute** presented by LAURA CHIERICO (Research & Innovation Unit, IRCCS Azienda Ospedaliero-Universitaria di Bologna), ROBERTA ZOLI (Research & Innovation Unit, IRCCS Azienda Ospedaliero-Universitaria di Bologna), CATERINA CICOGNANI (Research & Innovation Unit, IRCCS Azienda Ospedaliero-Universitaria di Bologna), HELENA POLICARDI (IRCCS Azienda Ospedaliero-Universitaria di Bologna) and LUIGIA SCUDELLER (Research & Innovation Unit, IRCCS Azienda Ospedaliero-Universitaria di Bologna)

# Poster Exhibit

# Poster Exhibit I

- **Barriers and facilitators to UK based health and social care-related information specialists' methodological research and career progression – survey and workshop** presented by OLETA WILLIAMS (Newcastle University)
- **Contribution to the sustainability of the library in terms of climate change using the example of the acquisition department of a medical library** presented by JUSTYNA KOPIEC (Library of the Medical University of Silesia) and ALEKSANDRA GUZIAŁEK (Library of the Medical University of Silesia)
- **Digital competence is essential!** presented by THERESE SKAGEN (Western Norway University of Applied Sciences), IRENE HUNSKÅR (VID Specialized University) and REGINA LEIN (University of Bergen)
- **Empowering Health Libraries for Digital Inclusion and Patient-Centred Care with Hublet Tablets** presented by NATASHA SMITH (Health Library Ireland)

## Poster Exhibit II

- **Fostering Collaboration and Community Engagement in New Library Spaces: Co-Planning, Gamification, and Shared Activities with Students and Staff** presented by ESSI LEMPIÄINEN (University of Turku) and LEENI LEHTIÖ (University of Turku)
- **Health Sciences Information Professionals in Spain: Strengthening Collaboration** presented by MARIA SOBRIDO-PRIETO (Universidad de A Coruña)
- **Improving publication advisory services based on the analysis of questions posted on the Q&A-Website Academia Stack Exchange** presented by JASMIN SCHMITZ (ZB MED – Information Centre for Life Sciences)
- **Librarians as administrators of scientific publications: the Italian (research and health libraries’) experience** presented by VALERIA SCOTTI (Fondazione IRCCS Policlinico San Matteo of Pavia)
- **Librarians role in the use of SPIRIT guidelines: effects on compliance** presented by VALERIA SCOTTI (Fondazione IRCCS Policlinico San Matteo of Pavia)

## Poster Exhibit III

- **Little Streams Make Big Rivers: Communication Strategies for an Expanded Research Service** presented by CAMILLA LARSSON (Mälardalen University), SARA LANDERDAHL STRIDSBERG (Mälardalen University) and JULIA HARRYSSON (Mälardalen University)
- **Open Access at San Raffaele Teaching Hospital** presented by LAURA TEI (IRCCS San Raffaele Hospital and University - Milan)
- **PUBLISSO: user-friendliness, accessibility and reusability?** presented by URSULA ARNING (ZB MED – Information Centre for Life Sciences)
- **Reorienting through teamwork: one library's experience of organizational change** presented by STEPHANIE HENDERSON (University of Kentucky Medical Center Library), LAUREN ROBINSON (University of Kentucky Medical Center Library), REBECCA J. MORGAN (University of Kentucky Medical Center Library), CAYLA M. ROBINSON (University of Kentucky Medical Center Library) and JASON S. KEINSLEY (University of Kentucky Medical Center Library)

## Poster Exhibit IV

- **The Art of Citation Searching: a Comparison of Tools and Techniques** presented by JOLANDA ELMERS (Medical Library, Lausanne University Hospital and University of Lausanne) and CÉCILE JAQUES (Medical Library, Lausanne University Hospital and University of Lausanne)
- **The Ethical Use of Digital Story Telling in Healthcare Research in Malaria Prevention: A Systematic Literature Review** presented by BRENDA VAN WYK (Department of Information Science (iSchool), University of Pretoria)
- **The health information expertise and the necessary superpowers to face new challenges in publishing: the new training strategies for researchers training** presented by PATRIZIA GRADITO (Istituto Zooprofilattico Sperimentale del Lazio e della Toscana M. Aleandri)
- **The transition from manual to automated indexing of Medline citations** presented by SCILLA PIZZARELLI (Istituto Superiore di Sanità, Knowledge Unit (Documentation and Library))

# Online Only Workshop

# Workshop «AI tools for literature searching: Opportunities, limitations, and responsible use»

- **Co-Presenters:** Anna Richards, Ishbel Leggat (Academic Support Librarians, University of Edinburgh)
- **Description:** This session will introduce you the basics of using generative AI to help with conducting a literature search, including generating search terms and finding and summarising research papers. It will cover the pros and cons of using generative AI for these tasks, as well as the limitations, and will discuss how to use generative AI tools responsibly and ethically. We will outline the approach we are taking at the University of Edinburgh and have chance for a discussion of participants' thoughts and uses of AI, as well as a chance to experiment with using an AI tool for literature searching.
- **Duration:** 75 minutes
- **Mode:** Online via Zoom link (will be sent to participants closer to the event)
- **For EAHIL 2024 conference online attendees only!**
